

Rafael Reimberg Miyamoto

UI Designer | 29 anos

rafaelmiy@gmail.com

(11) 9 4190-9188

Goal

UI designer always up to date with technologies, I have a strong impulse to the IOT and Artificial Intelligence world. Due to this interest, I always try to combine technological innovation and design in every project I work on.

I always try to get involved with the flow of use, information architecture, and deliver, through navigable prototypes, the result of multidisciplinary studies, in interfaces that add and generate value for society and business.
